Management Software

Multi-Pull

■ Description

- ♦ *Competitions up to 12 ranges*
- ♦ *Entries*
- ♦ *Squad composition*
- ♦ *Shooting order*
- ♦ *Results: manual or automatic insertion*
- ♦ *Classifications, individual and team*
- ♦ *Print and export files in .pdf or .xls*
- ♦ *Statistics*
- ♦ *Multi language software*
- ♦ *Instruction manual and online help*
- ♦ *Connection to the website www.multipullsoft.it to follow the competitions in real time on the internet*
- ♦ *Possibility of managing Trap competitions with and without draw*

- ♦ *If it's used the **Multi-Pull** system (control units on the ranges, monitors and/or scoreboards), the Management Software can automatically receive the results from the shooting ranges and control all the devices of the Multi-Pull system*

- ♦ *The Multi-Pull Competition Management Software was developed in close collaboration with FITASC and has been used for the management of all international FITASC competitions since the beginning of 2012.*

■ Economical Management of the Club

*If the facility uses the **Multi-Pull** system, the Software also allows the economic management of the Club. It can be used to recharge the Athletes' Chip Cards, memorize all the operations carried out on the shooting ranges and on the Chip Card recharging stations, and therefore allow the Operator to always know in real time what is happening on his plant and to have an exact economic balance.*

Daily, weekly and / or monthly reports of the various activities carried out can be extracted, statistics can be obtained on the use of the various shooting ranges and thus optimizing the management of the Club.
